

Agile

THE FIRST AGI IN THE WORLD

How to Access & Deploy Agile

Follow this simplified onboarding protocol to activate your next-generation Artificial General Intelligence environment and authenticate your enterprise workspace.

1

Navigate to Pricing

Visit the official portal and access the Pricing tab to review model tiers, compute allocations, and deployment options.

2

Select Plan & Checkout

Choose the plan tailored to your team's computational needs and complete the secure payment process.

 Note: Your unique Agile Access Token will be dispatched to your registered email.

3

Access Login Portal

Return to the primary interface and click the **Log In** button located on the top-right navigation bar.

4

Authenticate Token

Paste your encrypted Agile Access Token into the authentication prompt to unlock instant system access.

You Are Good to Go!

Authentication complete. You now have full access to Agile's advanced reasoning engine, autonomous agent workflows, and API integrations.
